PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Associate and Cloud Engineer with hands-on experience provisioning, monitoring, and troubleshooting AWS infrastructure (EC2, S3, IAM, VPC) and Linux servers for 10+ international clients across 3 countries. Builds CI/CD pipelines with Jenkins, Git, and Docker, automates operations with Python and Shell, and deploys AI/ML applications to the cloud. B.Tech in CSE (AI & ML). Available to join immediately for Cloud Engineer, DevOps Engineer, SRE, and MLOps roles.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, Lambda, Aurora, CloudWatch), Google Cloud Platform (GCP)
DevOps & CI/CD: Docker, Jenkins, CI/CD Pipelines, Git, GitHub, Containerization, Infrastructure Automation
Operating Systems & Scripting: Linux Administration, Shell Scripting (Bash), Networking Fundamentals
Monitoring: Grafana, Amazon CloudWatch, Incident Troubleshooting, Root Cause Analysis
Programming & Databases: Python, SQL, C++
AI/ML & Automation: Machine Learning, Deep Learning, NLP, LLMs, OpenAI API, Claude, Model Evaluation, Feature Engineering, n8n Workflow Automation
Data & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Streamlit, MS Excel

PROFESSIONAL EXPERIENCE

Cloud Engineer Intern – Orbit Future (PT Orbit Ventura Indonesia), Jakarta (Remote) Dec 2025 – Apr 2026

International remote internship serving clients in Indonesia, Singapore, and Sri Lanka | Offer Letter | Experience Certificate

- Provisioned and configured AWS infrastructure (EC2, S3, IAM) for 10+ client applications, supporting scalable and secure deployments.
- Monitored and maintained 20+ AWS EC2 instances and Linux servers, sustaining 99.5% uptime for client applications.
- Responded to client incidents within 30–45 minutes and resolved 95% of tickets within 24 hours, prioritized by complexity.
- Diagnosed and resolved Linux server performance bottlenecks through log analysis and root cause analysis, reducing repeat incidents.
- Led technical calls with 10+ international clients in Indonesia, Singapore, and Sri Lanka to resolve cloud infrastructure and networking issues.

PROJECTS

DeepCSAT – E-commerce Customer Satisfaction Prediction | GitHub

Tech: Python, NLP, Bi-LSTM, Streamlit, AWS, Git

- Built an AI-powered CSAT prediction system using TF-IDF + Logistic Regression and a Bi-LSTM deep learning model, achieving 87% accuracy on real customer data.
- Engineered an end-to-end ML pipeline (preprocessing, training, evaluation, cloud deployment via Streamlit), improving sentiment classification by 12% over baseline.

Reddit Persona Generator – LLM Application | GitHub

Tech: Python, PRAW, OpenAI API, Gemini, JSON, AWS, Git

- Developed an LLM-powered tool that collects Reddit activity via the Reddit API and generates cited behavioral personas using OpenAI GPT, Google Gemini, or local LLMs.
- Designed a structured data-processing pipeline converting raw posts and comments into JSON for reliable LLM analysis with source citations.

Retail Analytics Dashboard – Sales & Inventory Intelligence | GitHub

Tech: Python, Pandas, Docker, Streamlit, Power BI, AWS

- Built and containerized (Docker) an end-to-end analytics platform integrating 400,000+ sales, customer, and inventory records.
- Created Streamlit and Power BI dashboards tracking sales, churn, and stock, improving demand forecasting accuracy by 18% and reducing overstock and understock.

TRAINING

AWS re/Start Program – GMR Varalakshmi Foundation Aug 2025 – Nov 2025

- Completed hands-on training in AWS cloud fundamentals and Linux administration, with labs on EC2, S3, IAM, VPC, Aurora, Lambda, and CloudWatch.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate, Amazon Web Services | Verify
AWS Certified Cloud Practitioner, Amazon Web Services | Verify
TCS iON Career Edge – Young Professional, Tata Consultancy Services | Verify

EDUCATION

B.Tech, CSE (AI & ML) – KG Reddy College of Engineering and Technology | CGPA 7.53/10 2021 – 2025

LEADERSHIP

- Conducted an AI workshop for 60+ students covering machine learning fundamentals with hands-on demos.
- Grew technical club social media engagement by 30% by publishing AI tutorials and innovation updates.
